## Gemfields de-listing from trading on the Bermuda Stock Exchange ("BSX")

Shareholders are advised that the Company will de-list from trading on the BSX on Wednesday 1 July 2020.

The reasons for the de-listing are that none of the Company's issued shares have traded on the BSX to date and the BSX listing is no longer required now that the Company's shares are admitted to trading on AIM.

The Company originally listed on the BSX to comply with the South African Exchange Control Regulations and to facilitate its inward listing on the Johannesburg Stock Exchange.

Shareholders who have any questions relating to the de-listing should contact the Company using the below contact details.

### Additional information on Gemfields

Gemfields is a world-leading supplier of responsibly sourced coloured gemstones. Gemfields is the operator and 75% owner of both the Kagem emerald mine in Zambia (believed to be the world's single largest producing emerald mine) and the Montepuez ruby mine in Mozambique (one of the most significant recently discovered ruby deposits in the world). In addition, Gemfields also holds controlling interests in various other gemstone mining and prospecting licenses in Zambia, Mozambique, Ethiopia and Madagascar.

Gemfields' outright ownership of Fabergé - an iconic and prestigious brand of exceptional heritage - enables Gemfields to optimise positioning, perception and consumer awareness of coloured gemstones, advancing the wider group's "mine and market" vision.

Gemfields has developed a proprietary grading system and a pioneering auction and trading platform to provide a consistent supply of coloured gemstones to downstream markets, a key component of Gemfields' business model and has played an important role in the growth of the global coloured gemstone sector.
